DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 19-27 have been considered but are moot in view of the new ground(s) of rejection.

In response to applicant's argument that Gluchowski does not address the benefits of an ophthalmic solution for improving vision in dim light or the benefit of a phentolamine-based formulation, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 28-32 are rejected under 35 U.S.C. 102(b) as being anticipated by Gluchowski (U.S. Patent No. 5,252,595).

With respect to **Claims 28,30,31,32**: Gluchowski teaches a therapeutic ophthalmic solution for use in a mammalian eye comprising an imidazoline and saline (Col. 4, lines 3-8). Imidazoline,

Art Unit: 3761

being an alpha receptor blocker is capable thus of effecting a contraction of the pupil in dim light by one millimeter or more. (Col. 3, lines 39-41, Col. 4, lines 15-19)

With respect to **Claims 21,25**: Gluchowski teaches that the active agent is present in an amount between 0.0001-1% weight by volume solvent (g/cc). Gluchowski teaches a composition having 300 ml water, therefore the active agent is present in an amount between 30-3,000 mg/cc, which overlaps the range set forth in claim 29. (Col. 4, lines 20-25, Col. 12, lines 48-50)

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
